

The Sunshine Coast Bromeliad Society Inc.

Presents

ANDREW DEVONSHIRE

15th September 2018

Millwell Road Community Hall, Millwell Rd (East), Maroochydore.

[See Map](#)

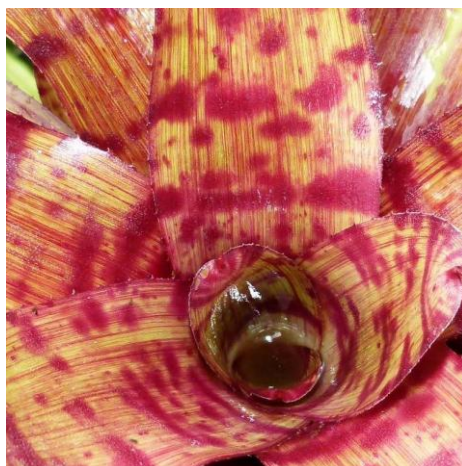

After a lot of persuasion, we have been fortunate enough to entice Andrew to visit our Region. Andrew is from New Zealand and recognised as a world leader in hybridising Neoregelia, particularly Mini Neo's

This will be his first talk **EVER** and will be an ideal opportunity for collectors to "Pick his brain" on hybridising, as his presentation will be in the format of "questions and answers,"

His talk will include pictures of his fantastic hybrids and a few will actually be available on display. **(Some might even be for sale!!!)**

We cordially invite members from your Society / Group to attend this meeting

- A sausage sizzle will start at **12:15PM** where you can meet and greet Andrew and socialize before the meeting
- An afternoon tea will also be provided during which time we will also have other plants for sales
- **For catering purposes could you please advise me by 10 September how many members from your Society / Group will be attending**

Neoregelia 'Life Force'.

Peter Cook
Secretary, SCBS
