Correspondence/Enquiries to: The Secretary, Sunshine Coast Bromeliad Society Inc. 1560 Yandina Coolum Road Yandina Qld...4561 www.scbs.org.au

# The Sunshine Coast Bromeliad Society Inc. Founded 1999

# **Affiliated with Bromeliad Society International**

PRESIDENT: VICE PRESIDENT: SECRETARY: TREASURER	Eric Baxter Kendall Ross Ralf Schenk True Grant	Phone: 07 54450378 Phone: 0414412110 Phone: 0403193068 Phone: 0414845165
<b>COMMITTEE MEMBERS</b> Cheryl Basic, Steve Flood	Nigel Thomson, Stephen Bartlett, Peter Henssler (OAM), Sue Loughran,	
STEWARDS		
· Membership	Peter Cook	
· Catering	Rostered by Cheryl Basic	
<ul> <li>Plant Sales</li> </ul>	Ralf Schenk	
· Popular Choice	Stephen Bartlet	t Stan Walkley
· Raffles	Kendall Ross	Gaye Cook
· Web Master	Peter Cook	

Monthly meetings are held at the Millwell Road Community Centre, 11 Millwell Road (East) Maroochydore. (Behind the Plaza Shopping Centre.) unless otherwise advised. See <u>Event Diary</u>

- Meeting preparation starts prior to 1.30pm with proceedings beginning at 1.40pm.
- Afternoon tea is available and members should bring their own cup.
- Raffle tickets can be purchased for \$1.00 each, proceeds from the raffle help offset the club's meeting expenses.

# **Meeting Programme**

- 1. Hall set up from 12 noon (members)
- 3. Popular choice set up and judging
- 5. Tea break and plant sales
- 7. Show and Tell

- 2. Committee Meeting when advised.
- 4. Opening and introduction by President
- 6. Popular Choice results & photos for Newsletter
- 8. Plant Raffle draw

#### Note: Variation of meeting programme in place when not held at the hall venue.

# **DATE CLAIMER**

## 8th December 2024: Xmas function and 25th Anniversary celebrations

## Maroochy RSL

# **UPCOMING MEETINGS**

#### Location TOPICS (to be advised)

- Sat 21 September 2024 Millwell Road Community Centre
- Sat 19 October 2024 Hall not available Location to be advised
- Sat 16 November 2024

#### **POPULAR CHOICE**

Date

Categories are (a) Neoregelia, (b) Pattern Leaf Vriesea, (c) Other Genera, (d) Tillandsia, (e) Goudea, Guzmania & Vriesea, Nidularium (f) Foliage and Flowering.

Remember to bring in one more of your plants for the above sections. To all members please place your vote for the plant in each section as your choice

**FIRE ANTS:** We all have a responsibility in stopping the spread. If you have purchased plants recently from other locations it is requested that you do not bring them to the meeting

#### **PLANT SALES**

Plants brought in for sale require sales stickers to be attached identifying the plant ,cost

and owners initials for both parts of sale sticker.

When approaching the sales counter the lower tab is removed by the person in charge and accepts

payment. (No credit card facility is available)

Note: All plants are to be free of pests and disease. They also must not contain any water to comply with conditions set by the hall

#### PLANTS FOR RAFFLE

Members bringing in plants for the raffle are to ensure plants are free from pests, scale and water. Other items of interest for members can be bought in, e.g. chocolates, garden pots, or anything that you may like to win as a prize.

#### **AFTERNOON TEA & COFFEE**

Please note that the kitchen afternoon tea and coffee - restricted handling by nominated catering staff. There is a water cooler for use at anytime should you feel thirsty.

Members are requested to bring their own drinking mug or cup.

#### JUNE 2024 MEETING

Social time before the meeting

Enjoying Sausage Sizzle and chat

Meeting in Progress

Presentation by True Grant

# **Popular Choice - Sat. 15 JUNE 2024**

# Tillandsia

#### 1st. Till.ionantha—Trish Poingdestre

#### Goudaea—Guzmania—Vriesea- Nidularium

1st. Vriesea White Cloud - Glenda Verner

#### **Other Genera**

1st. Pitcarnia smithiorum—Glanda Verner

Foliage

1st. Echeveria—Juliet Robertson

2nd. Rhipsalis Campos –portoana Juliet Robertson

1st. Oncidium Pink—Juliet Robertson

Flowering

2nd. Euphorbia x lomi Crown of Thorns

3rd. Phal. Orchid—Lou Thompson

# Neoregelia—200mm to 400mm

1st. Neo Alan's Iridium x Alan's Platinum— 2nd. Neo White Walker—Stuart and Jill Cheyne Susan Pedler

3rd. Neo. Loucana-Susan Pedler

# Neoregelia—Over 400mm

Equal 1st. Neo.Linda Cathcart—Susan Pedler

Equal 1st.Neo. Red Macaw—James Drake

2nd. Neo. Jeffery Block—Stuart and Jill Cheyne

# Neoregelia—Mini (Single Plant) less than 200mm

1st. Neo Unknown - Stuart and Jill Cheyne

# Neoregelia-Mini Multiple Inter Connected

1st. Neo. Heatwave—Glenda Verner

2nd. Neo. Blushing Beauty—Stuart and Jill Cheyne

3rd. Neo lilliputiana —Glenda Verner

# **Cryptanthus and Neoregelia Competition**

# Cryptanthus

1st. Crypt. Elaine–Stuart and Jill Cheyne

2nd. Crypt. Steve Flood—Juliet Robertson

3rd Crypt. Earth Star - Glenda Verner

#### **Best NEOREGELIA**

Neo Alan's Iridium x Alan's Platinum—Susan Pedler Judged by True Grant and Cheryl Basic

# **CRYPTHANTHUS and GRACE GOODE NEO COMPETITION WINNERS**

Stuart and Jill Cheyne with the Crypthanthus Trophy

Neo Alan's Iridium x Alan's Platinum—Susan Pedler Judged by True Grant and Cheryl Basic

# JULY 2024 MEETING

Meet and Greet

Competition set up

#### POPULAR CHOICE COMPETITION WINNERS

#### JULY MEETING

#### **NEOREGELIA**

1st Neo. Dyn-o-mite Sue Murray

2nd Neo Cane Fire—Jim Drake

PATTERN LEAF VRIESEA

3rd Neo. Chrissy - Stuart and Jill Cheyne

1st Vr. gigantea nova-Steve Flood

2nd Vr. Fools Pink—Stan Walkley

1st xSincoregelia Ecstasy—Sue Murray

#### **OTHER GENERA**

2nd xSincoregelia Galactic Warrior

3rd Orthophytum saxicola

#### GOUDAEA -GUZMANIA -VRIESEA-NIDULARIUM

1st Guzmania unknown—Jim Drake

#### TILLANDSIA

1st Till. Tina—Sue Murray

Equal 2nd Till. Bulbosa—stuart and Jill Cheyne

Equal 2nd Tillchiapensis Extra Large—Stan Walkley

FOLIAGE

1st Philodendron melinoni 'Gold' - Stephen Bartlett

2nd Echeveria 'Etna' - Trish Poindgestre

1st Laelia Cattleya 'Amaroo' Stuart and Jill Cheyne

2nd Cymbidium 'Unknown' Peter Hennsler OAM

3rd Clivia gardneri Stan Walkley

#### Native Bees and Products on display by our Guest Speaker -Dean BRYANT

#### **BIRTHDAYS**

Betty Jorgensen has been in hospital with Nova Virus and was released to go home on 13th August.

Contact has been made with Suzanne to let her know that we are thinking about her and wish Betty a speedy recovery

We have received the sad news that one of our past members, Ian Brocherie has passed away. Ian had been with the Society for 10 years before his health began to deteriorate. Our thoughts are with Mellisa and family at this sad time.

# Don't spread fire ants

#### Become a fire ant fighter

Be part of the team that is stopping fire ants from taking hold in Australia. Just one missed nest can multiply and spread across a community jeopardising eradication efforts. Fire ants pose the most risk when transported by people and can easily hitchhike in materials such as soil, hay, mulch, manure, quarry products and potted plants.

Participating in fire ant eradication is easy. By working together we can rid Australia of this invasive pest. <u>Penalties</u> can apply if you do not meet your legal obligations to prevent the spread of fire ants.

# Cyrtosperma johnstonii By Frank Tucker

This plant, I understand, hails from South East Asia, and is strictly a tropical plant. It is probably not well known here in these latitudes, and indeed, here on the Sunshine Coast, I have never seen one in any other collection, so they must be somewhat rare in this part of the world.

I have owned two of these plants some thirty years ago, and the first plant I purchased while living in Melbourne, but alas, I knew absolutely nothing about the plant's requirements, so I grew it in a hanging basket in a heated glasshouse. Unhappily, it did not last very long, and quickly died. Some eighteen years ago, after moving to Queensland, I acquired another specimen which I tried to grow in a pot among my Anthurium collection, but like its predecessor, it also quickly died. I then decided to abandon any plans to keep on persevering with this temperamental species.

It was only quite by accident that in late 2020, I was reading about the plant and then discovered for the first time that Cyrtosperma johnstonii is in fact a bog plant and likes a plentiful supply of water. On learning this, I acquired a third specimen in early 2021 which I potted up and immersed it in a garden pond, and where it has thrived ever since. Obviously, a lack of water was the cause of death of my first two plants.

I was interested to see if it would survive winter here on the Sunshine Coast. Here, I am happy to report, that the plant is still flourishing, as the attached photograph will demonstrate. Needless to say, it does not put on any, or any significant growth over the winter months, but now it has increased in size and is looking quite healthy. It does however die off during winter, but quickly recovers after the onset of warmer weather in spring.

The first two plants that I purchased by mail order all those years ago, cost about \$5 each, but this third plant which was somewhat smaller in size than its predecessors cost \$50 plus postage from Far North Queensland, so it will be of no surprise to anybody just how the prices of Aroids, in particular, have sky-rocketed in recent years.

As shown in the photograph, the plant has green sagittate leaves with very attractive red veins running through them. My plant is now about 90 cm tall, but it does grow (at least in tropical zones) to about three metres tall, and the leaves can grow to nearly two metres in length. Unfortunately however, the beautiful red veins only appear in juvenile plants, and as the plant increases in size, the leaves turn entirely green. A hazard with this plant is that the leaf petiols have sharp, upward facing spikes on them over the entire length of the petiols, so care in handling the plant is of utmost importance. However, this skill would be practised by any Bromeliad grower who owns prickly leafed varieties.
